

HSE POLICY

POLICY

JSL Global Doha is committed to operating in a manner that:

- Protects our employees and the environment;
- Adheres to government safety, environmental and health regulations; and
- Provides our customers with “value added” services so that they can further protect their employees, their property and the environment.

PRINCIPLES

Through adhering to the principles presented below we will honour our continual improvement commitment to Quality, Safety, Health and the Environment. To implement these principles, JSL Global Doha will be held accountable for the following:

Commitment to our employees and our partners

- We will provide the appropriate resources and training required to undertake our operations to high Quality, Health, Safety and Environmental standards.
- We will assess Health, Safety and Environmental risks and take appropriate actions as part of our normal business to prevent environmental impacts, injury or ill health.
- We will ensure a culture of open consulting and communication between all staff, contractors and stakeholders at all levels on safety, health, environmental and business quality issues.

Commitment to our government

- We will continuously undergo safety, health and environmental audits designed to measure our continued compliance with Qatar government safety, health and environment regulations and other applicable legislation.

Commitment to our customers

- We will aggressively offer solutions to our customers’ requirements and problems through innovative services and applications expertise. By continuing to place emphasis on meeting our customers’ exacting expectations, it is our intent to build a lasting business relationship with satisfied customers.
